

## **Subhash Banerjee, MD, Interventional Cardiologist, Cardiovascular Research and Innovation at Baylor University Medical Center**

One of the nation's leading experts in interventional cardiology and complex cardiac and vascular surgery, Subhash Banerjee, MD, is the Paul J. Thomas Endowed Chair in Cardiology and Chief of Cardiovascular Research and Innovation at Baylor University Medical Center, a part of Baylor Scott & White Health. Prior to joining Baylor Scott & White, Dr. Banerjee was Professor of Medicine and Chief of Cardiology and Director of the Cardiac Catheterization Laboratory at the VA North Texas Health Care System in Dallas.

Board-certified in interventional cardiology, he has dedicated his career to minimally invasive coronary artery, peripheral artery, and transcatheter aortic valve replacement procedures. Additionally, he is a leading expert in high-risk percutaneous peripheral artery and coronary artery interventions, the use of hemodynamic support devices, and percutaneous treatment of coronary and peripheral artery chronic total occlusions.

Dr. Banerjee is passionate about research, having led many landmark medical research trials, presented the latest scientific results from studies, and has published more than 450 peer-reviewed manuscripts and book chapters. His keen interest in how he could use research to change the course of disease drew him to minimally invasive endovascular procedures and inspired him to affect those changes in his patients.

He is the incoming editor in chief of the *American Journal of Cardiology*. Previously he served as deputy editor of *Circulation Cardiovascular Interventions*. He received his M.D. from Minsk Medical Institute and completed residency training at New York Presbyterian Hospital. Dr. Banerjee has completed fellowships at the University of Iowa Hospitals and clinics in cardiovascular disease and interventional cardiology.

## **About Baylor Scott & White Heart and Vascular Hospital – Dallas**

Founded in a tradition of research and innovation, Baylor Scott & White Heart and Vascular Hospital – Dallas<sup>†</sup> opened in 2002 as the region’s first and only dedicated hospital to heart and vascular care. The Dallas hospital is located adjacent to Baylor University Medical Center, part of Baylor Scott & White Health. Baylor Scott & White Heart and Vascular Hospital – Dallas has cardiology services available at Baylor Scott & White All Saints Medical Center – Fort Worth. With more than 44,000 patient registrations annually, a broad array of advanced cardiac interventional procedures and vascular surgeries are available, as well as diagnostic imaging and cardiac rehabilitative services. Programs on wellness and prevention are offered for the community. Additional information may be found on the hospital’s website, [www.BSWHealth.com/HeartDFW](http://www.BSWHealth.com/HeartDFW) or on the app, Baylor Heart Center, available from the Apple store. To find a specialist, please call 1.844.BSW.DOCS.

## **About Baylor Scott & White Health**

As the largest not-for-profit health system in the state of Texas, Baylor Scott & White promotes the health and well-being of every individual, family and community it serves. It is committed to making quality care more accessible, convenient and affordable through its integrated delivery network, which includes the Baylor Scott & White Health Plan, Baylor Scott & White Research Institute, the Baylor Scott & White Quality Alliance and its leading digital health platform – MyBSWHealth. Through 51 hospitals and more than 1,100 access points, including flagship academic medical centers in Dallas, Fort Worth and Temple, the system offers the full continuum of care, from primary to award-winning specialty care. Founded as a Christian ministry of healing more than a century ago, Baylor Scott & White today serves more than three million Texans.
